Yakov Hi
Let me repeat what I've told you during the Gala event.
Following on Viktor's remark that when we change the compensation structure Renova will cover expenses I've proposed to raise the figures by $50k per quarter and have the final figure, ($300k+$50k) =$350k per Quarter-covering all my expenses as well,rather than enter into complicate actual expenses calculations.
If this figure of $50k expenses per quarter seems to you too high, suggest another figure.
Yakov, I'm ready to conclude it in a modified agreement within 24hrs.
Regards
Ehud Barak

This reflect $10.8 B value for the whole Leviathan. The sides agreed to complete an agreement within 3m. About $850M will be paid upon completing of the binding agreement. $350M when actual export starts (probably 4-5yrs) and the rest half along the life of the field (30-40 yrs).

Dear Yakov

Thanks for providing me with your thoughts. Sorry for the late response.From my point of view the proposal is disappointing in terms of the figures and the content. I would like to propose that I'll spend some 30 min with Viktor (and you as well) in Moscow Monday (tomorrow)

evening or Tuesday morning
and try to reach a formula
which as agreed both of us will
feel comfortable with. In regard
to Leviathan I'm waiting for your
response.
Please try to arrange the short
meeting with Viktor and let me
know.
Looking forward
Best
Ehud Barak

Dear Mr.Barak,

As it was agreed during your Moscow, November the 20th, 2013, visit, please, have a look at the attached draft of the amendment to the consulting

services Agreement as of May 12, 2013.

Please, sign it and file to me the scan copy. Should you have any questions – I am at your disposal.

Best regards, Yakov
